

PRESS RELEASE

ColliCare strengthens ferry operations and customs clearance in Poland

Gdynia, march 2026

ColliCare Logistics continues to systematically develop its operational structures in Poland. At the company's new office in Świnoujście, two specialized areas of support have been launched: a ferry operations unit and a customs clearance team, strengthening the ColliCare Group's competencies on a European scale.

The ColliCare branch in Świnoujście, located in close proximity to ferry terminals, acts as an operational support center for the entire ColliCare Logistics Group in the area of ferry crossings, toll bridges, and tunnels across Europe. The team is responsible for coordination, administration, and optimization of ferry-related solutions used in the daily transport operations carried out by ColliCare companies in multiple countries.

„Centralizing these competencies in Świnoujście allows us to increase operational efficiency, standardize processes, and provide stronger support to handling international transport operations across the ColliCare Group.”
– emphasizes Paulina Jurgiewicz – Ferry Office Manager at ColliCare Logistics.

ColliCare Logistics Customs Agency in Poland

At the same time, a new customs agency team has been established in Świnoujście to support ColliCare's clients in Poland with import and export customs clearance. The team handles day-to-day customs operations and provides advisory support in the area of formal requirements and compliance with applicable regulations.

The development of customs competencies in Poland responds to the growing needs of importers and exporters working with ColliCare and forms part of the Group's long-term strategy to strengthen local structures supporting international supply chains.

The expansion of the teams in Świnoujście represents another step in the development of ColliCare Logistics in Poland and confirms the importance of the Polish market within the Group's structure, which has long specialized in transport and logistics solutions across European and Scandinavian routes.

About ColliCare Logistics:

ColliCare Logistics is a Norwegian logistics company founded in 2007. It is the largest privately owned company in its sector in Norway and has branches in Sweden, Denmark, Finland, the Netherlands, Latvia, Lithuania, Italy, Turkey, India, and China. Since 2022, it has also been present in Poland, offering road, sea, rail, and air freight solutions, as well as customs clearance. The ColliCare Group employs 800 people and focuses on smart logistics solutions and the development of sustainable logistics.
