ColliCare Logistics opens its second office in Poland

Gdynia, January 2026

Norwegian company ColliCare Logistics, present in Poland since 2022, has opened its second office in the country. The new branch is located in Świnoujście, at 11 Fińska Street, near the ferry terminal. This is an important step in ColliCare's development in the Polish market, which is one of the company's strategic areas of growth and development.

As a strong player in the Scandinavian market, ColliCare handles growing volumes on the Poland-Sweden and Poland-Norway routes. The need to open a new office stems from the company's dynamic growth and the need to maintain a high level of customer service for both existing clients and new partners.

"Both in Poland and across the ColliCare Group, we are observing a steady increase in volumes in Scandinavian relations, so opening an office in Świnoujście is a key step in our strategy. This location, close to ferry ports and intensive transport activity, will allow us to be closer to our customers and even better meet their needs. The Polish economy is growing rapidly, and building a strong presence in this region is essential to maintaining a high level of service and supporting trade between Poland and Scandinavia.", says Piotr Kaleńczuk, General Manager of ColliCare Poland.

ColliCare's new office also means expanding the company's team in Poland – eight new specialists joined the company, including Paulina Jurgiewicz, who has taken on the position of Office Manager in Świnoujście.

"I am delighted to be leading the new ColliCare branch in such a strategic location. Our goal is to further strengthen the company's presence in Poland and ensure the highest quality of service.", emphasizes Paulina Jurgiewicz.

Paulina Jurgiewicz - Office Manager

ColliCare is also developing projects that will optimize transportation costs in Poland, Scandinavia, and throughout Europe, benefiting their customers – more competitive rates and a high standard of service.

"Poland is becoming strategic area of growth and development for us in Europe. Our presence in this region supports trade between Poland and Scandinavia, where ColliCare has a very strong position. The new office in Świnoujście is an investment in the future – in the development of services, people, and technologies that will allow us to offer even more efficient and sustainable transport solutions.", emphasizes Knut Sollund, CEO of ColliCare Logistics.

About ColliCare Logistics:

ColliCare Logistics is a Norwegian logistics company founded in 2007. It is the largest privately owned company in its sector in Norway and has branches in Sweden, Denmark, Finland, the Netherlands, Latvia, Lithuania, Italy, Turkey, India, and China. Since 2022, it has also been present in Poland, offering road, sea, rail, and air freight solutions, as well as customs clearance. The ColliCare Group employs 800 people and focuses on smart logistics solutions and the development of sustainable logistics.
